MANAGED

Datrix

FOCUS ON WHAT MOVES YOUR BUSINESS

Leave the back end to the experts, with a fully managed stack service. Datrix is a full-service layer, delivering turnkey infrastructure solutions all managed by our expert team.

INFRASTRUCTURE AS A SERVICE, FROM RACK TO RUNTIME

From hardware and OS to monitoring and patching, we handle the complexity so you can innovate, scale, and serve your users faster.

6
Countries with our expert operations team

11
Data Centers + future expansions

99.99%
Or higher service availability, backed by SLAs

24/7
Monitoring and incident resolution

KEY BENEFITS

FASTER TIME TO MARKET
Avoid the delays of logistics, international customs, and hiring.

FLEXIBLE SCALING
Start small and scale fast, without reinvesting in new tools or talent.

FULLY MANAGED INFRASTRUCTURE
We manage everything, from power to platform.

HIGH-TOUCH SUPPORT
24/7 monitoring, incident resolution, and hands-on help.

CONNECTED DATA CENTERS
Data Centers across Latin America linked by the PAC, MAC, SAC, SAC-2 and CC crossings.

SECURITY & COMPLIANCE
Infrastructure aligned with regional data policies and SLAs.

PRODUCT COMPONENTS

- Datrix Core: Space, power, and remote ops.
- Datrix Connect: Cross Connectops, Metro Connect, Ecosystem Access, Innerduct.
- Datrix Compute: Dedicated and virtual environments.
- Datrix Managed: OS, hypervisor, monitoring, patching, backups, and remote support.

IDEAL FOR

ENTERPRISES
Without local infrastructure teams.

ORGANIZATIONS
Or regulated industries.

GLOBAL COMPANIES
Expanding into Latin America without overhead.

STARTUPS & SAAS
Providers needing hands-off infrastructure.
